

Department "Technology and Design of Textile Materials"

Department was founded in 2006y. "Technology of textile and light industry." In 2010, the department was renamed "Technology and design of textile materials."

Department was headed by cand.tech.sci. T. Kaldybaev in 2006-2007y, cand.tech.sci. S. Baizhanova in 2008-2010y., Ph.D. N. Botabayev in 2014-2015y., in 2010-2014y. and From 2015 to 2022, he headed the candidate of Technical Sciences, Associate Professor T. U. Togataev. From 2022 to the present, PhD is headed by A. A. Yeshzhanov.

In 2016, M.Auezov SKSU was the first among the universities of the RK that successfully passed the international accreditation on educational programs in the German accreditation agency ASIN, 5B073300- "Technology and design of textile materials".

In the department is taught 1 doctors of technical sciences, 4 candidates of science and associate professors and 5 masters

The works of the scientists of the department "Technology and Design of Textile Materials" are highly appreciated by the state. Communications with this in 2014 1 lecturer (cand.chem.sci., associate professor Janpaizova V.M.), in 2015 1 lecturer (cand. tech.sci., associate professor Baizhanova S. B.), in 2016 1 lecturer (cand. tech.sci., associate professor Sagitova G. F.), were awarded the state grant "The Best Teacher of the Year."

Within the framework of international cooperation, students and lecturers of the department pass training in the near and far abroad (Russia, Czech Republic and Turkey).

As well as in 2018, Professor of the Department, Doc.tech. sci. V. Sabirov was awarded the 41st place (1500 points) in the overall rating of teachers (TOP-50) in the National Rating of Independent Accreditation and Rating Agencies (IAAR).

1. Laboratories of the department "Technology and Design of Textile Materials"

Laboratory class "Technology of knitting production"

Laboratory class "Textile materials"
